FAST FACTS

Re:Sist can help you:

- Regulate and balance the cascade of your body's own immune responses
- Boost natural killer (NK) cell activity by 40%
- Strengthen host immune system and enhance defenses

Supplement Facts

Serving Size: 1 Capsule

	Amount Per Serving	% DV
Vitamin C (as ascorbic acid)	25 mg	28%
Zinc (as zinc citrate)	10 mg	91%
Spirulina extract (IMMULINA™)	200 mg	†
Elderberry fruit extract 10:1	20 mg	†
Astragalus root extract 10:1	10 mg	†
Echinacea extract (4% polyphenolics) (aerial parts)	10 mg	†
Reishi mushroom	10 mg	†
Aloe barbadensis leaf 200x (inner gel)	10 mg	†
Larch tree arabinogalactans	10 mg	†

† Daily value (DV) not established.

Other ingredients: Capsule shell (hypromellose, titanium dioxide), magnesium stearate, medium chain triglycerides, silica and microcrystalline cellulose.

RE:SIST

Your immune system is the body's defense against infectious organisms and viruses. It is made up of a network of cells, tissues, and organs that work together to protect the body. Through a series of steps called the immune response, the immune system attacks organisms and substances that invade our systems. In most cases, the immune system does a great job of keeping people healthy, but sometimes it can face serious challenges.

Help your natural defense system with Re:Sist, a unique combination of natural extracts and vitamins. The Re:Sist proprietary formulation contains IMMULINA™, a patented micro-algae complex recognized by leading clinical scientists as supporting a balanced immune system.

INGREDIENT INFORMATION:

The heart of Re:Sist is IMMULINA, a patented, clinically-tested, all-natural, micro-algae complex supplement that is extracted from *Arthrospira platensis*.

For over 10 years, botanical extracts and known immune stimulation products were researched and tested by leading research scientists at a major U.S. institution.

During the research process, it was discovered that crude *Arthrospira platensis* had the strongest ability (at least 1,000 times greater) to balance and support the human immune system when compared to other known botanical immune stimulation extracts. In order to produce the most powerful benefits from *Arthrospira platensis*, a patented extraction process was developed and as a result, the IMMULINA extract was born.

IMMULINA is proven to be 1,000 times more active in stimulating a significant immune system response when compared to other immunotherapy treatments. IMMULINA assists the innate immune system by boosting Natural Killer cell activity and increasing the removal of pathogens and destroyed cell debris. Older adults have experienced increased production of Th cells, which increases the power of the adaptive immune system.

BIOACTIVE MICRO-ALGAE COMPLEX, SUPPORTS THE BODY'S NATURAL IMMUNE SYSTEM

UNIQUE COMBINATION OF NATURAL EXTRACTS & VITAMINS

- Vitamin C, also known as ascorbic acid is required for the growth and repair of tissues in all parts of the body. One of its major functions is to help in the creation of collagen, a protein used to make skin, scar tissue, tendons, ligaments and blood vessels
- Vitamin C is essential to properly heal wounds and for the repair and maintenance of cartilage, bones and teeth. It is an antioxidant vitamin, helping to prevent damaging free radicals.

- Vitamin C also assists in immune support by activating neutrophils, the most prevalent white blood cells that work as the frontline defense. It also seems to increase production of lymphocytes, the white blood cells important in antibody production and in coordinating the cellular immune functions.
- Zinc is crucial for normal development and function of cells such as neutrophils and natural killer cells.
- Zinc deficiency also affects development of adaptive immunity by preventing both the growth and certain functions of Th cells. It plays a role in cell division, cell growth, the healing of wounds and the break down of carbohydrates and helps to maintain lymphocyte function.
- Proprietary blend of herbal extracts including IMMULINA, Elderberry fruit extract, astragalus root extract, Echinacea extract, Reishi mushroom, Aloe barbadensis and Larch tree arabinogalactans. Our blend of extracts supports and maintains the immune system and includes antioxidants to prevent damaging free radicals.
- Elderberry fruit extract contains natural antioxidants called flavonoids to protect the cells from free radical damage and anthocyanines which stimulate the immune system by supporting the production of cytokines.
- Astragalus root extract supports the cytotoxicity and activity of NK cells and macrophages and increases T-cell activity.
- Echinacea extract supports phagocytic activity of macrophages, thus keeping the immune system alert to any potential pathogens and helps to eliminate free radicals.
- Reishi mushroom has antioxidant properties by eliminating hydroxyl free radicals and creates an antiviral effect by inducing interferon production.
- Aloe barbadensis maintains the production of T-lymphocyte cells and supports phagocytosis.
- Larch tree arabinogalactans supports NK cell cytotoxicity and increases the release of gamma interferon.

ABOUT VOLLARA:

You've always heard we are what we eat... NOT TRUE... we are what we ABSORB! Air, water and nutrients are all vital to our health and what we absorb is the key. Vollara technologies offer complete health choices; choices to purify the air you breathe and the surfaces you touch, enrich the water you drink, support your immune system and strengthen your body. Our in-house team works closely with our esteemed Medical & Scientific Advisory Board who tests and researches every component of every technology to ensure we are delivering solid, best-in-class products. Our proven business systems empower people to command their financial footing, to bring security to their lives, to provide for themselves and their loved ones and to help all of us care for this precious planet with which we have been blessed. Welcome to a new way to live healthy. Welcome to Uncompromising Health™ by Vollara.
